

**Prabhakar Patil Education Society's
Arts, Commerce and Science College,
Veshvi, Alibag, Raigad**

Teachers use ICT-enabled tools to enhance the teaching-learning process in various ways. These tools captivate students' interest through interactive elements like presentations and PDFs, fostering active engagement. Additionally, ICT resources offer a wealth of educational materials, including e-books, articles, and videos, enriching the curriculum with diverse perspectives. With adaptive software, teachers can personalize instruction to accommodate individual learning styles and pace. ICT tools also streamline assessment and enable remote learning, ensuring continuity of education in diverse contexts. Overall, integrating ICT into teaching practices empowers teachers to create dynamic, inclusive learning environments that cater to students' diverse needs and preferences.

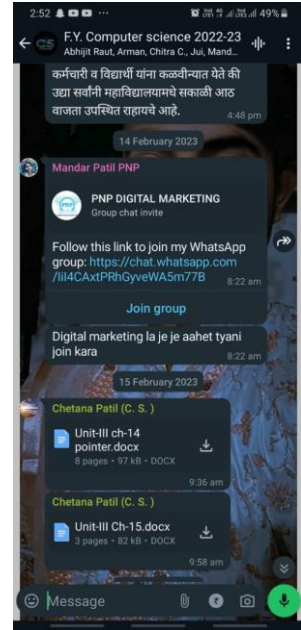

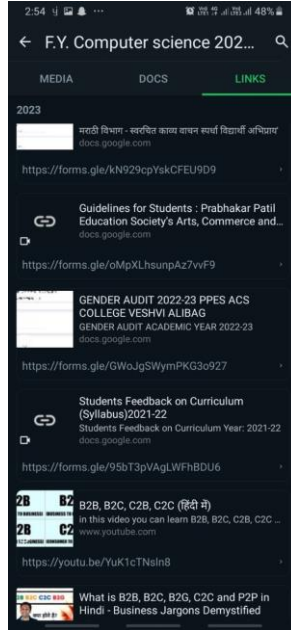

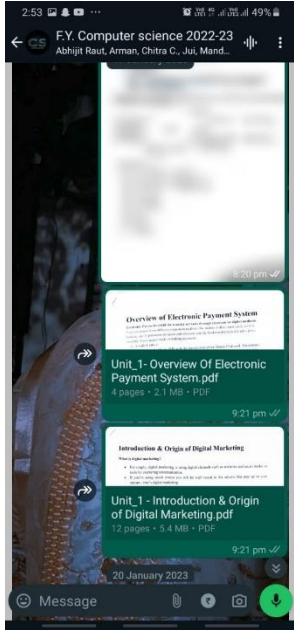

Following are the different ICT tools used by the teachers:-

1. Microsoft PowerPoint Presentation
2. Microsoft One Note
3. Microsoft Whiteboard
4. Educational videos from YouTube
5. WhatsApp groups.
